

47th APIMONDIA International Apicultural Congress

September 20-25, 2021
UFA - RUSSIA

Statement on 47th Apimondia International Apicultural Congress

47th Apimondia International Apicultural Congress is planned to be organized between September 20th - 25th, 2021 in Ufa, Russian Federation. Unfortunately all of the world is facing a pandemic problem in the preparation period and the Organizing Committee of the Congress is facing the effects of pandemic seriously. Inspection trips to Ufa can not be done at the moment, participating in other beekeeping events to promote Apimondia Congress is not possible. Nearly all beekeeping events are postponed or being organized virtual.

Apimondia Federation and Congress Organizing Committee of the Congress is monitoring the situation closely. At the moment, all parties including the officials in Ufa are working on the congress like everything is normal. Reservations for ApiExpo is still going on, abstract submission will be starting soon. We are still hopeful that congress will be organized in defined dates, we are positive and optimistic but also we are realistic and we will not risk the human health.

As a conclusion, as of August 2020, there is no given decision to postpone the event. Apimondia Federation will be contacting with member countries to have their ideas about the Congress and final decision will be given in year 2020.

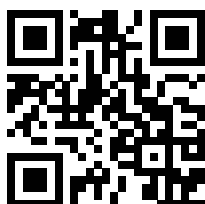

We hope everything will be better in a short time and we'll be able to welcome the beekeeping World in Ufa, Russian Federation.
